

**SINGAPORE ENGINEERING SOFTWARE PTE LTD  
CHANGES ITS NAME TO  
SES SYSTEMS PTE LTD**

Singapore, 18 February 2003 – Singapore Engineering Software Pte Ltd, a wholly-owned subsidiary of Singapore Technologies Electronics Limited (“ST Elect”), has changed its name to SES Systems Pte Ltd (“SES Systems”). ST Elect is the electronic sector of public-listed Singapore Technologies Engineering Ltd.

SES Systems’ three business thrusts (C2I, Homeland Security Systems, Enterprise Solutions) include both hardware and software system design, development, integration, installation, testing, maintenance and life-cycle support. Projects undertaken include systems for mobile public safety tracking and management, defence command and control, constructive/C2I simulation, air traffic control and financial solutions. This new name will better reflect its business offerings.
