

MULTIMEDIA

EDUCATION RESOURCE INTERACTIVE TEACHER SYSTEM

Revolutionalise Your Classroom with Multimedia Technology Today!

Multimedia Education Resource Interactive Teacher System (**MERiTS**), is robust, scalable and cost-effective, and is designed and built for the modern teaching professional.

Teachers, with **MERiTS**, will be better empowered to be even more creative in the classroom. **MERiTS** will open a teacher's mind to a new range of possibilities in lesson delivery and classroom management. Every teacher can expect to be more efficient and effective than ever before.

For students, **MERiTS** will be a new and total learning experience, where they will be encouraged and intellectually stimulated to engage in learning and active participation in class.

KEY FEATURES

Robust Multimedia Solution

Underpinned by the latest in PC and intelligent multicast technologies, MERiTS minimises obsolescence to bring you a scalable and reconfigurable teaching solution. The system promises to revolutionise today's teaching methodology and change any classroom based learning environment.

User-friendly Interface

Specially designed by teaching professionals for teachers, MERiTS integrates the requirements of self-paced learning and teacher-led sessions into a single system. Supported by the latest in multimedia applications, MERiTS further boasts an impressive array of highly interactive features and capabilities. Its user-friendly interface makes navigation through MERiTS intuitive and easy for both teachers and students alike.

Customised Courseware

One of the hallmarks of MERiTS is its adaptability. ST Electronics (Training & Simulation Systems) Pte Ltd (STEE-T&S) brings together a team of experienced teaching professional, subject matter experts and creative instructional designers to develop pedagogically sound and localised courseware that is customised to suit your specific teaching requirements.

WHY US

STEE-T&S delivers innovative training and learning solutions for commercial, defence and industrial applications worldwide. With over two decades of experience, the company is a recognised leader in the field of simulation and training. We offer one-stop solutions from software applications and development of new innovative training systems to providing maintenance and upgrading of legacy training systems.

CAPABILITIES

- Simultaneous screen and students' desktop broadcast
